

HORIZON VA

STANDS

Este documento tiene como objetivo presentar la asignación de stands dentro de los FIR (Flight Information Regions) LECM (Madrid), LECB (Barcelona), LECS (Sevilla) y GCCC (Islas Canarias) para la aerolínea virtual Horizon. Aquí se detallará la ubicación de cada stand asignado y las condiciones para su uso, asegurando que los pilotos virtuales tengan una referencia clara y organizada.

En caso de que los stands asignados no estén disponibles, los pilotos podrán utilizar otros stands, siempre **ajustándose a la categoría y tipo de avión correspondiente**. Asimismo, los aeropuertos que no se mencionen en este documento quedan a libre elección del piloto, permitiendo mayor flexibilidad dentro de la operativa de Horizon.
